

Publications for Mitchell D. Smooke

Books

1. M. D. Smooke (editor), Reduced Kinetic Mechanisms and Asymptotic Approximations for Methane-Air Flames, Springer-Verlag, Heidelberg, 1991.
2. M. D. Smooke (Chair), J. B. Bell, J. H. Chen, M. B. Colket, T. H. Dunning, D. Gannon, W. H. Green, C. K. Law, M. Livny, M. Lundstrom, C. B. Moore, C. L. Palmer, A. Troune, and C. Westbrook, Cyberinfrastructure for Combustion Research, National Research Council, The National Academies Press, Washington, D. C., 2011.

Journal Articles, Book Chapters, Proceedings and Reports

1. M.D. Smooke, "Error Estimates for Piecewise Perturbation Series Solutions of Parabolic and Hyperbolic Equations," Sandia National Laboratories Report #80-8627, (1980).
2. M.D. Smooke, "Piecewise Analytical Perturbation Series Solutions of the Radial Schroedinger Equation – One Dimension," *SIAM J. Sci. and Stat. Comp.*, **3** (1982).
3. M.D. Smooke, "Error Estimates for Piecewise Perturbation Series Solutions of the Radial Schroedinger Equation," *SIAM J. Numer. Anal.*, **20** (1983).
4. M.D. Smooke, J.A. Miller, and R.J. Kee, "Numerical Solution of Burner-Stabilized Flames by an Efficient Boundary Value Method," in *Numerical Methods in Laminar Flame Propagation*, N. Peters and J. Warnatz, eds., (1982).
5. M.D. Smooke, J.A. Miller, and R.J. Kee, "On the Use of Adaptive Grids in Numerically Calculating Adiabatic Flame Speeds," in *Numerical Methods in Laminar Flame Propagation*, N. Peters and J. Warnatz, eds., (1982).
6. M.D. Smooke, "Solution of Burner-Stabilized Pre-Mixed Laminar Flames by Boundary Value Methods," *J. Comp. Phys.*, **48** (1982).
7. H. Dwyer, M.D. Smooke, and R.J. Kee, "Adaptive Gridding for Finite Difference Solutions to Heat and Mass Transfer Problems," in *Numerical Generation of Curvilinear Coordinate Systems and Use in the Numerical Solution of Partial Differential Equations*, J. Thompson, ed., (1982).
8. J.A. Miller, R.E. Mitchell, M.D. Smooke, and R.J. Kee, "Toward a Comprehensive Chemical Kinetics Mechanism for the Oxidation of Acetylene: comparison of Model Predictions with Results from Flame and Shock Tube Experiments," *Proceedings of the Combustion Institute*, **19**, (1982).
9. R. J. Cattolica, M. D. Smooke, and A. M. Dean, "A Hydrogen-Nitrous Oxide Flame Study," SAND82-8776, (1982).

10. M.D. Smooke, "An Error Estimate for the Modified Newton Method with Application to the Solution of Nonlinear Two-point Boundary Value Problems," *J. Opt. Theory and Appl.*, **39** (1983).
11. M.D. Smooke, R.E. Mitchell, and J.F. Grcar, "Numerical Solution of a Confined Laminar Diffusion Flame," in *Elliptic Problem Solvers*, G. Birkhoff and A. Shoenstadt, eds., (1984).
12. M.D. Smooke, J.A. Miller, and R.J. Kee, "Determination of Adiabatic Flame Speeds by Boundary Value Methods," *Comb. Sci. and Tech.*, **34** (1983).
13. J.A. Miller, M.D. Smooke, R.M. Green, and R.J. Kee, "Kinetic Modeling of the Oxidation of Ammonia in Flames," *Comb. Sci. and Tech.*, **34** (1983).
14. M.D. Smooke and M.L. Koszykowski, "Fully Adaptive Solutions in Solid-State Combustion," in *Numerical Methods for Transient and Coupled Problems*, R. W. Lewis et al., Eds., Pineridge Press, Swansea, (1984).
15. J.A. Miller, R.J. Kee, M.D. Smooke and J.F. Grcar, "The Computation of the Structure and Extinction of a Methane-Air Stagnation Point Diffusion Flame," presented at the 1984 Spring Meeting of the Western Section of the Combustion Institute, (1984).
16. G. Dixon-Lewis,..., M.D. Smooke et al., "Calculation of the Structure and Extinction Limit of a Methane-Air Counterflow Diffusion Flame in the Forward Stagnation Region of a Porous Cylinder," *Proceedings of the Combustion Institute*, **20**, (1985).
17. J.A. Miller, M.C. Branch, W.J. McLean, D.W. Chandler, M.D. Smooke and R.J. Kee, "On the Conversion of HCN to NO and N₂ in H₂-O₂-HCN-AR Flames at Low Pressure," *Proceedings of the Combustion Institute*, **20**, (1985).
18. R.J. Kee,...,M.D. Smooke et al., "Implicit Methods in Combustion and Chemical Kinetics Modeling," in *Multiple Time Scales*, J. U. Brackbill and B. L. Cohen, eds., Academic Press, New York, (1985).
19. N. Peters and M.D. Smooke, "Fluid Dynamic-Chemical Interactions at the Lean Flammability Limit," *Comb. and Flame*, **60** (1985).
20. M.D. Smooke, R. J. Kee and J. A. Miller, "Solution of Premixed and Counterflow Diffusion Flames by Adaptive Boundary value Methods," *Numerical Methods for Two-Point Boundary Value Problems*, **5** (1985).
21. M.D. Smooke and R.M.M. Mattheij, "On the Solution of Nonlinear Two-Point Boundary Value Problems on Successively Refined Grids," *Applied Numerical Mathematics*, **1** (1985).
22. M.D. Smooke and M.L. Koszykowski, "Fully Adaptive Solutions of One-Dimensional Mixed Initial-Boundary Value Problems with Applications to Unstable Problems in Combustion," *SIAM J. Sci. and Stat. Comp.*, **7** (1986).

23. R.M. Mattheij and M.D. Smooke, "Error Estimates for the Inverse of Tridiagonal Matrices Arising in Boundary Value Problems," *Linear Algebra and Its Applications*, **73** (1986).
24. M.D. Smooke and M.L. Koszykowski, "Two-Dimensional Fully Adaptive Solutions of Solid-Solid Alloying Reactions," *J. Comp. Phys.*, **62** (1986).
25. M.D. Smooke, "On the Use of Adaptive Methods in Premixed Combustion," *AIChE J.*, **32**, (1986).
26. Y. Reuven, M.D. Smooke and H. Rabitz, "Sensitivity Analysis of Boundary Value Problems: Application to Nonlinear Reaction-Diffusion Systems," *J. Comp. Phys.*, **64**, 1986.
27. R.M.M. Mattheij and M.D. Smooke, "On the Use of Newton's Method in the Adaptive Solution of Nonlinear Two-Point Boundary Value Problems," in *11th IMACS World Congress Proceedings*, (1986).
28. V. Giovangigli and M.D. Smooke, "Extinction Limits for Premixed Laminar Flames in a Stagnation Point Flow," in *Large Scale Scientific Computing*, P. Deuffhard and B. Enquist, Eds., (1986).
29. R.J. Kee, J.F. Grcar, M.D. Smooke and J.A. Miller, "A Fortran Program for Modeling Steady Laminar One-Dimensional Premixed Flames," Sandia National Laboratories Report, SAND85-8240, (1985).
30. J.F. Grcar, R.J. Kee, M.D. Smooke and J.A. Miller, "A Hybrid Newton/Time-Integration Procedure for the Solution of Steady, Laminar, One-Dimensional, Premixed Flames," *Proceedings of the Combustion Institute*, **21**, (1986).
31. V. Giovangigli and M.D. Smooke, "Calculation of Extinction Limits for Premixed Flames in a Stagnation Point Flow," *J. Comp. Phys.*, **67**, (1987).
32. M. D. Smooke, A. A. Turnbull, R. E. Mitchell, and D. E. Keyes, "Solution of Two-Dimensional Axisymmetric Laminar Diffusion Flames by Adaptive Boundary Value Methods," in *Mathematical Modeling in Combustion and Related Topics*, Eds. C.-M. Brauner and C. Schmidt-Laine, NATO ASI Series, (1988).
33. D.E. Keyes and M.D. Smooke, "Flame Sheet Starting Estimates for Counterflow Diffusion Flame Problems," *J. Comp. Phys.*, **77**, (1987).
34. M.D. Smooke, I.K. Puri and K. Seshadri, "A Comparison Between Numerical Calculations of the Structure of a Counterflow Diffusion Flame Burning Diluted Methane in Diluted Air," *Proceedings of the Combustion Institute*, **21**, (1986).
35. V. Giovangigli and M.D. Smooke, "Extinction of Strained Premixed Laminar Flames with Complex Chemistry," *Comb. Sci. and Tech.*, **53**, (1987).
36. W.T. Ashurst, N. Peters and M.D. Smooke, "Numerical Simulation of Turbulent Flame

- Structure with Non-Unity Lewis Number,” *Comb. Sci. and Tech.*, **339**, (1987).
